### EMPLOYMENT HISTORY

#### UI/UX Design

November 2020 – January 2022

Created and designed a website called 'Medical Journal'. Worked both on the front end and back end of the website using programming languages(python, java, HTML, and CSS).

- Designed a useful and elegant digital experience for a website helping in the field of medicine and healthcare from start to finish(research, design, test, implement) as the lead.
- In less than 2 months designed eloquent flow and structure of the website along with a fully functioning module for communication
- Fostered collaboration and consistency alongside team members.
- Presented website to a board of members, answering questions and receiving feedback for the same.

Website report: <https://bit.ly/3uhOowG>

#### Augmented Reality Developer July 2021 – Present

- Created augmented reality filters and effects for use on Facebook, Instagram, and messenger.
- Integrated 3D elements into world scenes to create an immersive digital experience.
- Worked alongside content creators to cater to their AR needs and ideas.
- Increased impressions to over 160 million and opens to over 32 million in less the one year.
